**Long recognized as one of the Caribbean's most secure anchoring spots. Marigot Bay provides protection to ships during the roughest of seas.**

The bay is known as a "hurricane hole" due to its location on the west side of the island, where it is surrounded by mountains and experiences minimal tidal changes.

Affording convenient access to the Caribbean, Marigot Bay Resort and Marina is a favorite starting and drop off point for yacht charters due to the large-scale marina and direct flights to and from both the United States and the United Kingdom.

Accommodating some of the biggest superyachts ever made and attracting visitors traveling from some of the most exciting places in the world, Marigot Bay Marina is a spectacular sight to behold. A beautiful combination of deep blue waters from the bay and crisp, green palms from the gardens, Marigot Bay Marina is a showstopper. As practical as it is beautiful, the marina provides convenient access to the Caribbean for yacht charters and offers a 5 star luxury resort open all year for boaters and their guests.
